## Vision

We envision a world where individuals and families are empowered to become active participants in the energy revolution, harnessing the sun's power to transform their lives and create a brighter future for generations to come.

## Mission

Building a community of empowered solar stewards by crafting personalized solutions that illuminate individual lives and pave the way for a brighter, sustainable future, together.

## Main objective

Our sole objective is to install the systems in such a way that we are not inconvenienced. By doing so, the benefit naturally extends to our customers.

## What is POWERSUN

POWERSUN is your one-stop shop for a brighter energy future. We are a trusted Sri Lankan solar installation company dedicated to empowering everyday Sri Lankans to take control of their energy bills and environmental impact.

## We offer

### Personalized solar solutions

We design custom systems that fit your lifestyle and budget, maximizing your savings and energy independence.

### Expert guidance

Our team of specialists will guide you through every step, from initial consultation to installation and beyond.

### Top-quality equipment

We use only the most reliable and efficient solar panels and components to ensure long-lasting performance.

### Customer-centric approach

Your satisfaction is our priority. We provide exceptional service and support throughout your solar journey.

### Sustainable future

By choosing Powersun, you're not just saving money, you're also contributing to a cleaner and more sustainable future for Australia.

So, if you're looking to take control of your energy and brighten your future, Powersun is the perfect partner for you!

## Install a hassle-free SOLAR POWER SYSTEM

---

We will install the most appropriate electrical system for your home, factory or institution, which will return your investment in a solar power system in about 3 ½ years.

## Install a hassle-free SOLAR POWER SYSTEM

---

We will install the most appropriate electrical system for your home, factory or institution, which will return your investment in a solar power system in about 3 ½ years.

Our company's board of directors and planners are science graduates and technical officers are certified and experienced by the Vocational Training Authority. All technical work will be done under the personal supervision of a qualified Chartered Engineer with 35 years of experience in the Electricity Board, and at the end, you will receive a technical report from the Chartered Engineer.

The world's highest quality inverters, solar panels and other accessories are used so that you and us are not inconvenienced.

A top-quality grounding system will be installed under the personal supervision of our engineer to prevent damage to the inverter and other devices and to protect the residents and electrical appliances used in the home.

The inverter comes with a ten-year manufacturer's product warranty, and we are confident that it will function properly (performance) for over twenty-five years due to our careful and high-tech installation of all equipment.

For other devices, only quality products are used, not only to ensure your confidence but also with the desire to save the time of our technical personnel and the loss caused by the reduction of electricity production or outage.

After installation, one of our staff frequently will monitor your system online.

## Why POWERSUN

At Powersun Australia (Private) Limited, we empower everyday Sri Lankans to take control of their energy future. We design personalized solar solutions that fit your lifestyle and budget, helping you save money and gain energy independence. Our team of experts will guide you through every step of the process, ensuring a smooth and successful solar experience. We use only the highest quality equipment for a long-lasting, efficient system. But Powersun is more than just about panels. We prioritize customer satisfaction and go the extra mile to ensure you're completely happy. Choose Powersun for a stress-free solar journey from start to finish, knowing you're supported by a trusted, local Australian company with a deep understanding of your community's energy needs. We're invested in helping Sri Lankans transition to a brighter, sustainable future, together. We can even help you navigate government rebates and financing options to make solar power even more accessible.

By choosing Powersun, you're not just saving money; you're making a positive impact on the environment. We're passionate about helping Sri Lankans transition to a cleaner, more sustainable future for generations to come.
